Determined Feeder Schools

The traditional elementary theme schools mainly receive students from schools that have space constraints (there are more students scheduled to enroll in the feeder schools than there is space to receive them). Elementary schools in the immediate community with the greatest need for relief will serve as feeder schools to the elementary theme schools. If a feeder school's enrollment decreases, the feeder school may no longer serve as a theme feeder site. This determination is made annually. The theme middle school receives students from throughout the DeKalb County School System.
